Primary Care Clinics

What is a Clinic or Center?

A facility or distinct part of one used for the diagnosis and treatment of outpatients. "Clinic/C irregularly defined, sometimes being limited to organizations serving specialized treatment requi or distinct patient/client groups (e.g., primary care, radiology, poor, and public health).

What is a Primary Care Clinic?
Primary care clinics provide day-to-day healthcare services to patients. Primary care acts as the point of continuous healthcare for patients and also coordinates specialist care as may be req the patient. Primary care is usually provided by general practitioners, family medicine doctors."

What is a NPI Number? : The National Provider Identifier (NPI) is a unique identification number for covered providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numl carry other information about healthcare providers, such as the state in which they live or their medical special must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care provic health plans and health care clearinghouses must use the NPIs in the administrative and financial transactior under HIPAA (Health Insurance Portability and Accountability Act).

Where NPI should be used? : The NPI must be used in place of legacy provider identifiers, such as a Uniqu Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghous HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Er providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, hc agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

Who must obtain NPI? : All health care providers who are HIPAA-covered entities, whether they are indivi physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, h agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practi Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health ca who transmits health information in electronic form in connection with a transaction for which the Secretary of Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
